Experience

Full Stack Developer Intern   08/2024 to 11/2024
PA Group   Brussels, BE

- Coding HTML, CSS, and JavaScript to create and enhance user interfaces.
- Implementing responsive design principles to ensure websites are mobile-friendly.
- Collaborating with the design team to translate mockups and wireframes into functional web pages.
- Troubleshooting and debugging front-end issues.
- Participating in the development of server-side code using languages like Node.js.
- Integrating web applications with databases and APIs.
- Assisting with the implementation of server-side logic and functionality.
- Performing basic testing of web pages and applications, including cross-browser and cross-device testing.
- Reporting and documenting any bugs or issues found during testing
- Participating in code reviews and discussing solutions with more experienced developers.
- Documenting the code, processes, and any other relevant information
- Assisting in maintaining and updating project documentation.

Full-stack Developer Intern   01/2024 to 03/2024
Talentguide   Ghent, BE

- Identifying, debugging, and fixing issues across the website's frontend and backend
- Collaborating with cross-functional teams to address reported bugs promptly
- Conducting thorough testing to ensure bug resolutions are effective and do not introduce new issues
- Implementing proactive measures to prevent future bugs and optimize website performance.

Junior Full-stack Developer Trainee   05/2023 to 12/2023

BeCode   **Brussels, BE**

- Proficiency in HTML, CSS, and JavaScript
- Familiarity with front-end library and framework like React
- Knowledge of responsive design principles for optimal user experiences across different devices
- Familiarity with server-side programming language like Node.js
- Experience with server framework such as Express (Node.js)
- Database management using technologies like MySQL, PostgreSQL, MongoDB, or NoSQL databases
- Understanding of RESTful APIs and how to design and consume them
- Implementing authentication and security measures to protect user data
- Creating and maintaining database schemas
- Writing queries and optimizing them for performance.

                                                                                09/2013 to 11/2019

Silknet

- Resolving complex technical issues faced by our technicians
- Diagnosing and resolving intricate problems with a diverse range of software, hardware, and network systems
- Collaborating closely with company technicians providing effective remote support to ensure optimal functionality.
